Galveston. Texas.
May. 28th 1872.

My Dear Sister.

Your letter and picture came Sunday. I had been looking for it a week or more, until I had about given up looking, and then it came. We all like your picture very much. Mr. Stevenson has intended all the time to put yours with one of those dark ones of mine, in his Album; mine, however, has gone to Connecticut now, but when it comes back again, he is going to put them together. I want to put the one you sent me, into my Album opposite Father. Isn't that the best place? Did you receive mine that I sent you? I sent one at the same time to Aunt Abbie, or rather to Kate, and received an answer, last week

There is so much that I must do before school closes, I shall not try to write you long letters any more, - need I? The weather is very warm, and we have had two little rains, that the sand is very deep.

Much love for all.

Annie.

Wednesday. She wrote that she was getting ready to go to New York, and to Newark. New Jersey, the last of July, said that she was having a white suit made, and her mother's wedding-dress made over for her. I judge that she and Laura are a good deal alike.

Yesterday morning, I received a circular from Rockford telling about the Alumnae Association, and that the next Re-Union would be Tuesday Eve, June 25th. How I should like to be there. Our school will close the 18th of June, but the Exhibition will not be until Thursday and Friday evenings of the following week. Our passes came last Saturday, so there will be no delay on their account, when we get ready to start. Gen. Howard was very willing that we should go home, but wrote that he hoped we would be willing to come back here again after vacation. I dont know about that.
