
HOUSE OF REPRESENTATIVES,
TWELFTH LEGISLATURE,

AUSTIN, Mar 29th 1871.

Dear Stevenson

Yours of the 24th and 25th Inst. received to day. I have the name of Senator Pridgen and Louis Stevenson added since I wrote you. Parson Ben Williams and Groathous refused to sign.

I will send the petition Resolutions and a personal letter to the Gov. to day.

I have heard nothing about Plumleys signing your petition, since I asked him. I asked him twice and thats enough for me. Would be Congressmen sometimes change their minds

with the prospect of a nominating Convention in the prospective, Oh disgusting politics. Stimson excuse my insinuations - I seldom indulge in them but some things are so plain and so disgusting. This is on the square - Stimson is here rooming with me. He is working hard for the nomination for congress at the coming Convention - I think his prospects are good unless the wire pullers and tricksters jerry mander him out of it which you know is liable to be the case.

Yours Truly and fraternally

Sinclair
